

Flashfire® Maple

Acer saccharum 'JFS-Caddo2' PP 23361

Dark green, heat resistant leaves cast cool summer shade before turning the brightest red color of any sugar maple adapted to Southern growing conditions.

Vigorous growth, open branch angles, a strong central leader and improved mildew resistance recommend it as the best of the cultivars originating from seed collected in the Caddo Mountains of western Oklahoma.

Acer saccharum 'JFS-Caddo2' PP 23361

Flashfire® Maple

Zone: 4
Height: 45'
Spread: 40'
Shape: Broadly oval
Foliage: Dark green
Fall Color: Bright red

Selected from Caddo Mountain sugar maple seedlings, this tree has the brightest red fall color we have seen in a cultivar adapted to Southern heat. It features dark green summer foliage, better mildew resistance than other Caddo selections, strong growth, and brilliant red, early fall color.

Acer saccharum 'Green Mountain'

Green Mountain® Maple

Zone: 3
Height: 50'
Spread: 40'
Shape: Broadly oval
Foliage: Dark green
Fall Color: Reddish-orange to red

INSECT RESISTANCE: Japanese beetle

Green Mountain® is the standard for comparison in Sugar Maples. It is the most widely planted selection and has proven itself well over time. It is probably the hardiest Sugar Maple and is the best choice for northern areas. It provides reliable fall color.

Acer saccharum 'John Pair'

John Pair Maple

Zone: 5
Height: 30'
Spread: 30'
Shape: Rounded
Foliage: Glossy green
Fall Color: Red

Symmetrical and rounded in form, this heat resistant sugar maple of small stature is at home in the southern plains. Selected by horticulturist Dr. John Pair from the heat resistant Caddo County, Oklahoma seed source, its foliage stands up to summer heat.

Acer saccharum 'Legacy'

Legacy® Maple

Zone: 5
Height: 50'
Spread: 35'
Shape: Oval
Foliage: Glossy dark green
Fall Color: Reddish-orange to red

INSECT RESISTANCE: Japanese beetle

Legacy produces a very symmetrical oval crown. This, combined with its glossy dark green leaves makes it one of the most handsome Sugar Maples in summer. Its leaves are quite tough and resist leaf tatter and drought.

Apollo® Maple

John Pair Maple

Acer saccharum 'Sisseton'

Northern Flare® Maple

Zone: 3
Height: 50'
Spread: 40'
Shape: Broadly ovate
Foliage: Dark green
Fall Color: Orange-red to red

Selected from the westernmost native population of sugar maple in the northern U. S., this hardy selection features vigorous, straight growth, thickly textured leaves, and bright orange-red fall color. This North Dakota State University introduction is tolerant of both cold and drought.
