

Liquidambar styraciflua

'Slender Silhouette' Sweetgum

Zone: 4-9

Height: 60'

Width: 6'

Crown: Very columnar
Growth Rate: Rapid
Soil: Loam, clay
pH: Acidic, slightly alkaline
Drainage: Well drained, some flooding
Drought: Moderate tolerance
Breakage: Susceptible
Pests: Few if any
Disease: Few if any

Here one for all of you columnar tree lovers. This tree in Ohio is 12 years old and as you can see, about 30 feet tall. Pretty fast. Besides that, it's

Seedless! And the fall color is yellow to reddish purple. It's pretty much problem free. And like all the Liquidambar, it is a tree that does very well in urban conditions. This is a perfect tree for a tight place, perfect for a specimen or group planting. And it is problem free.
